## Introduction

The JITH are designed to meet societal needs in the areas of energy and environment. They help promote cooperation between the scientific teams from both shores of the Mediterranean and at a global scale and provide an opportunity for young researchers to present their research.

Since their creation in Monastir (Tunisia) in 1983, the JITH are held every two years alternately in Algeria, Morocco, Tunisia, France, Belgium and Egypt. The 18th edition of JITH be held in Monastir.

## Objectives

The JITH aim to reach the following in the domains of Energy and Environment:

- To review the progress of the research state in the areas of heat transfer, energy efficiency, new and renewable energy and the environment.
- To contribute to the dissemination and enhancement of research for applications in various sectors of the economy (industry, agriculture, transport and building).
- To develop and foster relations between researchers and decision-makers in these areas.
- To foster the interdisciplinary approach.
